Aboriginal people (%)	1.32	0.87	0.59

ETHICS	2015	2014	2013
Number of transactions that underwent enhanced anti-corruption due diligence 	54	58	41

* Between 2013 and 2014, the methodology for aggregating transaction information was revised to count the number of assessments completed in a given fiscal year, rather than the date the loan was signed. This data is not directly comparable to information on EDCs disclosure page.

** In 2015, we were developing an updated approach to assess human rights risk related to projects and other types of transactions; this process will be finalized in 2016. Due to this change, EDC is not reporting a specific number of human rights risk assessments (HRAs) completed in 2015; in 2015, the assessment of human rights risks was integrated into assessments completed according to EDC's Environmental Review Directive.

*** Government of Canada fiscal year (April 1, 2015 to March 31, 2016)
